Programs:	Strong - medium - delicate
Interface:	2.4" TFT touch screen
Controls:	auto off
Connectivity:	2.4Ghz WiFi
Movement:	Orbital
Power supply:	adapter
Power requirements:	100-230V 0.3A 50-60Hz
Code:	VPR0060

BBWash is exactly the resin cleaner machine you've been waiting for.

With its washing programs, the removable basket and the possibility of anchoring the printing platform to the lid without having to detach the object.

BBWash is an authentic revolution to be discovered. Bundled with a second basket, it allows for coarse washing and final washing, avoiding contamination and saving cleaning liquid.

Proprietary cleaning algorithms with orbital system ensure effective and safe cleaning.
